Description:

- iPROTECT has effectiveness against the 99% of bacteria, i.e. Escherichia Coli and Staphylococcus Aureus
- The antibacterial additive is used in the production cycle during the moulding and its efficacy lasts as long as the pen itself.
- The same antibacterial additive is used all over the world with several applications, i.e. films, foams, fibres, tapes, coatings, paper, adhesives and wet paints, etc.
- iPROTECT is not dangerous for the skin, even for the more sensitive ones.
- iPROTECT characteristics render it a promotional product particularly suitable for the medical and pharmaceutical fields.
- It is not a surface treatment, the iPROTECT antibacterial action is water, scratch and UV proof.
- The antibacterial function of iPROTECT pen has been certified the Public Health and Microbiology Department of the University of Turin and by LEBSC Chemistry Department of the University of Bologna.
- iPROTECT has achieved the very demanding Standards required by the ISO 22196 (JIS Z 2801).
